Locality Needs Profile
Sutton Local Committee Area
June 2014
What is a Locality Needs Profile?

- Analysis of key local data
- Identifies local area characteristics
- Supports you in making decisions
- It includes data on:
  - Demographics
  - Education
  - Housing
  - Labour Market & Economy
  - Transport
  - Resident Satisfaction
  - Health & Wellbeing
  - Community Safety
  - Deprivation
Community Cohesion

84% of residents agree that people from different backgrounds get on well together. This is significantly below the borough average of 89%.

21% are fairly or very worried about a racist attack/racial harassment, which is significantly higher than the borough average of 16%.
40% of households in Sutton Local are living in purpose-built flats. A further 7% are living in a converted house or house share.

19% of households are living in privately rented accommodation. This is higher than the borough average of 15%.
29% of households have **no car or van**. This is higher than the borough average of 23%.

25% of residents (aged 16-74) travel 6 to 12 miles to work. A further 32% travel between 1 and 6 miles.

26% of residents believe **road and pavement repairs** are the area that most needs improvement.
28% of residents in Sutton Local said they were *fairly or very fit*. This result is significantly below the borough average of 38%.

18% said they took part in sport or exercise at least once a day. This is in line with the borough average of 19%.
What the data are telling us...

- **Community Cohesion could be improved**
  - What could be done to improve the relationships between residents?

- **High levels of households privately renting and living in flats**
  - What could this mean for the local area?

- **Lower car ownership and variation in distance travelled**
  - Public transport could be important to residents.
  - Road and pavements repairs are important to residents.

- **Improving fitness and exercise levels**
  - Could fitness and exercise be limited due to travel times and limited access to space?
Things to consider...

- What more do we need to understand to make decisions locally?
- What are the implications?

Next steps...

- To work with:
  - Ward Councillors,
  - Community Representatives and
  - Other Stakeholders
- To understand the implications
- Further report to committee
